You knew there would be a lot, right? Sometimes there are more than 10 events on a single day! In that case, additional events are displayed with an "X." Placing your cursor over the X will reveal those events.

Viewing "by week" will display all events each day of that week.

Clearly there are too many events for a single calendar page, so by clicking on the **Region**, **National/Special Events**, or **Caravan** icons at the bottom of the screen you can refine what events are displayed. For example, clicking on "Region 10" will display all events for that Region.
